

*The end to "I'll have to call you back on that."*

What problem most plagues the home furnishings industry?  
*Fast, accurate, systematic access to information.*

What solves that problem?  
*FurnishWEB*

### What is FurnishWEB?

FurnishWEB is a dealer and sales rep portal for the home furnishings industry, featuring a comprehensive online order, inventory, shipping and tracking system.

### What does it do?

- Reports inventory availability, tracks orders placed, follows orders shipped.
- Monitors trends based on product, style, customer, placement, and year-to-year performance.

### Who uses it?

1. Manufacturers, importers, wholesalers
2. Retailers, dealers, importers, designers
3. Sales representatives, sales management
4. Customer service representatives
5. Staff of all the above

### For what?

- Fast, accurate access to information about products, availability, shipping and orders
- Integration of their unique back-office accounting systems with FurnishWEB's access to data
- Vastly improved response time to queries, resulting in greatly enhanced customer service
- Reduction in order entry keying errors
- The end of "I'll have to call you back on that."

### How long?

FurnishWEB can be set up with your data to meet your exclusive needs in four to six weeks.

### How much?

As low as \$500 per month, plus set-up charges, for unlimited staff, sales reps, and retailer users on a month-to-month contract. You can end your subscription at any time.
